

PACK YOUR BAGS

Do you have a Money Monster lurking in your closet?

"Leave Your Money Monster Baggage at the Door"

Money monsters are formed from stories and beliefs that were imposed on you by others. This playful workshop will help you disempower your money monster, so that you can achieve your financial goals with greater joy and ease.

"Jodi's workshop made me realize I was holding back from financial success because I was raised to believe that extra money should be given away to help others. This was a money monster I wasn't even aware that I had. Thankfully, I was able to transform my guilt around being profitable...now I AM more profitable, and I feel more fulfilled." -

Joanna
