# MONEY MINDSET MAKEOVER

January 18th - March 8th, 2023

Thursdays 7:00 p.m. Live Webinar

Give your future a fresh new look as you clear the clutter from your money-mindset closet, and set goals with clarity and style!

**Join us on the road to financial freedom!**

Money mindset refers to how you think about money. Unchecked, it can block your financial decision-making, behaviors, feelings and goals. Once explored, your financial future is empowered.

Experience a unique journey of self-discovery using creativity, collage, painting, writing, and more! Limited space is available, discounts apply for early registration and multiple sessions. Artistic skill is not needed to benefit from these workshops.
